

Show-Me Strong Recovery Plan: What to Expect in Phase I for the Service Industry

Businesses that cannot abide by social distancing

The social distancing requirements do not apply to individuals performing job duties that require contact with other people closer than six feet (6'). To assist in the protection of employees and patrons the following recommendations should be followed:

- **Barber Shops**
- **Beauty Salons**
- **Nail Salons**
- **Tattoo Parlors**
- **Therapeutic Massage**
- **Gyms**
- **Hotel Swimming Pools**

Under these conditions, businesses such as barber and cosmetology shops, hair salons, and tattoo parlors are allowed to operate. Gyms and hotel swimming pools can also open if they adhere to strict social distancing and sanitation protocols.

SOCIAL DISTANCING

Missourians shall abide by the 6ft distancing rule from other individuals. This does not apply to family members or individuals performing job duties that require contact with other people to perform their work duties. Enhanced precautions should be taken when work duties require contact with people less than 6ft apart.

VULNERABLE POPULATIONS

People shall not visit nursing homes, long-term care facilities, retirement homes, or assisted living homes unless to provide critical assistance or in end-of-life circumstances. Elderly or otherwise vulnerable populations should take enhanced precautions to reduce the risk of exposure and contracting COVID-19.

How long is this order in effect?

The Order is in place through Sunday, May 31, 2020. The Order will be re-evaluated before it expires, and may be further restricted, less restricted, or extended in the current form.

* Businesses and employees should work together to implement public health and safety measures for employees and customers, using the above direction as a guide, in addition to any guidance provided by the Centers for Disease Control and Prevention (CDC).

GENERAL GUIDELINES

- Citizens who feel sick should stay home.
- Continue to practice good hygiene.
- Avoid socializing in groups that do not allow for appropriate physical distancing (receptions, tradeshow, etc.)
- When in public, maximize physical distancing from others.
- Minimize travel to the extent possible.

ENFORCEMENT

The state is working with local health authorities to support the order. Local health authorities and law enforcement maintain the same jurisdiction and authority they have always had.

What if my job requires me to be within six feet (6') of another employee and/or customer?

The social distancing requirements do not apply to individuals performing job duties that require contact with other people closer than six feet (6'). To assist in the protection of employees and patrons the following recommendations should be followed:

All:

- Advertise that clients are appointment only
- No one should accompany patrons to their appointments unless by physical necessity (to assist in mobility or physical requirements)
- All clients must wait in their personal vehicles until the business is ready for them. This will decrease social gatherings in waiting areas
- If you or anyone you have been in contact with has been ill, please cancel your appointment and stay home to decrease possible risk
- Encourage masks or face coverings during the clients visit, for both client and employee safety. Mask style should be conducive for allowing employees to conduct their task. Such as loops on mask around ears in order for a stylist to be able to have work with the client's hair.
- Encouraged to bring your own reading material in order to decrease the task of disinfecting surfaces between guests.
- Discourage eating and drinking in the business. To encourage that masks should always utilized in the facility
- Encourage patrons to wash their hands upon entry into facility
- Clean and sanitize between every client
- Avoid hugs and shaking hands
- Businesses are encouraged to implement alternative methods of payment if able. This decreases cash changing hands and minimalizes points of contact (Venmo. PayPal, Credit/debit Cards)
- Physical barriers may be put in place to assist in separation such as: acrylic or plexi shields between client and employee, or surgical style curtain.

Beauticians/ Barbers Shops

- Minimize blow drying to decrease air movement, encourage patrons to wash hair prior to minimize contact and time
