

Show-Me Strong Recovery Plan: What to Expect in Phase I

SOCIAL DISTANCING

Missourians shall abide by the 6ft distancing rule from other individuals. This does not apply to family members or individuals performing job duties that require contact with other people to perform their work duties. Enhanced precautions should be taken when work duties require contact with people less than 6ft apart.

VULNERABLE POPULATIONS

People shall not visit nursing homes, long-term care facilities, retirement homes, or assisted living homes unless to provide critical assistance or in end-of-life circumstances. Elderly or otherwise vulnerable populations should take enhanced precautions to reduce the risk of exposure and contracting COVID-19.

• Restaurants

Dining rooms may reopen but with measures in place that prioritize public health and safety to include:

- Regulating self-serve options such as salad bars and buffets.
- Use disposable menus if possible.
- Employee use of personal protective equipment, if available.
- Tables and seating shall be spaced out according to social distance requirements.
- The continued use of drive-thru, pickup, or delivery options is encouraged.
- Food court establishments may operate, but the social distancing and communal seating requirements will prevent them from offering seating.

Restrictions on Retail Businesses

- Workplaces that engage in retail sales (to include grocery stores) to the public must limit the number of customers in each retail location to the following standards based on the workplace's fire or building code occupancy:
- Locations less than 10,000 square feet must maintain 25% or less of the authorized occupancy
- Locations 10,000 square feet or greater must maintain 10% or less of the authorized occupancy.
- If there is no building or fire code in your jurisdiction setting occupancy, use the following formula to calculate your allowed occupancy:

Building Sq. Ft divided by 30
= Quotient
Quotient x .25 = Occupancy
limits for smaller stores, or;
Quotient x .10 = Occupancy
limit for larger stores.

(You may use either use the calculation set forth above for businesses without a fire or building code occupancy limitation, or the calculation applied to your business based upon your specific local jurisdiction fire and building code occupancy limitation, whichever is greater.)
